SKID-MATE™
PROTECTION AGAINST
SHOCK AND VIBRATION

Each year, shock and vibration results in millions of dollars
doing damage during transport and handling of sensitive and
valuable equipment.

The SKID-MATE™ is an air dampened cushioning device
that provides a fast, cost-effective and durable customized
solution to protect sensitive products from shock and vibration.
They can be easily mounted on a crate or pallet base,
eliminates the need for expensive air-ride trucks. Skid-Mates
are the most economical solution to transport.

| SKID-MATE+PLUS™ is a SKID-MATE™ cushion, plus a
rugged polyethylene
1-1/8” thick spacer
disk. The addition of
the spacer to the
SKID-MATE™ increases
the total height to 4”
capable of accepting
most pallet jacks
worldwide. |

| SKID-MATE™
airendamped
cushioning
devices are
easily attached
to a pallet base
with a 5/16”

(7.9 mm) - 18 UNC
bolt threaded into
the molded-in insert. |

| LOAD RANGE PER PAD |

| LIGHT LOAD |

| TAN SKID-MATE™
20-35 lbs. (9.1-16.5 kg)
P/N 35-630-035T* |

| GREEN SKID-MATE™
30-50 lbs. (13.6-22.7 kg)

> DETAILS

- **SHOCK RESISTANT**
  Reduce costly field service calls and repairs resulting from shock and vibration damage in transit.

- **TOUGH AND DURABLE**
  Under the maximum load, Skid-Mates can endure 3000 feet (914 meters) of dragging over concrete and floor joints.

- **HI/LOW TEMPERATURES**
  Skid-Mates are suitable for use between -40 F and +130 F (-40 C to + 54C).

- **CHEMICAL RESISTANT**
  Skid-Mates are made of polyethylene, a chemically inert material.

- **RECYCLABLE**
  Every Skid-Mate is environmentally friendly and reusable.

> BENEFITS

- Reduce packaging design and assembly time and cost
- Eliminate costly damage from handling hazards during shipment
- Reduce costs associated with shock and vibration damage
- Provide protection during loading/unloading
- Eliminate the need for expensive air-ride vans
- Permits 4-way pallet entry design
- Easily add shock protection to crates/pallets
- **SKID-MATE+PLUS™** fits most pallet jacks worldwide
